## MY VOICE, MY CHOICE /

Millions of children around the world are falling prey to sex tourists. Your company may be unintentionally facilitating this debilitating form of abuse. The Code of Conduct for the Protection of Children from Sexual Exploitation in Travel and Tourism, developed by ECPAT in conjunction with the travel industry, can help your business become a more responsible member of our global community.

A recent survey shows that travelers strongly support companies that implement The Code. To date, more than 900 companies across the word have signed The Code and your company could be the next to join them.

Putting an end to child sex tourism is important to me. I will follow up on your decision and this will be affecting my purchasing choices in the future. Please contact ECPAT at [ecpat@ecpatusa.org](mailto:ecpat@ecpatusa.org) for more information and an application.

Thank you for your time.  
Sincerely,

---
